PROFILE

Aspiring full-stack MERN developer with expertise in frontend technologies like React and backend development using Firebase. Proficient in creating responsive and user-friendly web applications. Continuously learning and enhancing skills in Node.js to deliver scalable and efficient solutions. Strong problem-solving abilities with a focus on quality and innovation.

PROJECTS

URL Shortener

A full-stack URL shortener app with detailed analytics

- Built a URL shortener with features like click tracking, user location, and device information.
- Enabled users to create custom URLs and analyze link interactions with detailed insights.

Tech Stack: React, Node.js, MongoDB, Express, JWT

Ayush Pathology Lab

A collaborative task management tool with real-time updates

- Designed an admin panel for CRUD operations on reports and client appointments.
- Integrated real-time database updates and a streamlined appointment system.

Tech Stack: React, Firebase, Tailwind CSS

Space Web

A UI-focused space-themed website

- Created a modern, visually appealing website with AOS animations for dynamic effects.
- Focused solely on design and animations, without functional backend integration.

Tech Stack: React, Tailwind CSS, AOS Animations

HOBBIES & INTERESTS

- Traveling and exploring new places
- Exploring New Technologies
- Photography and video editing
