Summary

I'm a passionate Full-Stack MERN Developer skilled in React, Node.js, Express, and MongoDB. I enjoy building responsive, interactive, and user-friendly web applications with clean design and strong functionality. Currently pursuing a BCA degree and holding NIELIT certifications (O Level & CCC), I'm eager to keep learning and develop impactful digital solutions that make a difference.

Projects

URL Shortener

- Built a full-stack URL shortening platform that allows users to create and manage custom short links.
- Integrated click tracking with detailed analytics for device type, location, and access count.
- Secured routes and user data with JWT authentication and Express middleware.

Tech Stack: React, Node.js, MongoDB, Express, JWT

Pathology Management System

- Developed a complete pathology web application with an admin dashboard to manage appointments, reports, and clients.
- Implemented CRUD operations and real-time updates using Firebase Realtime Database and Storage.
- Designed a modern, responsive interface with Tailwind CSS for seamless user and admin experience.

Tech Stack: React, Firebase, Tailwind CSS

Portfolio Website

- Developed a personal portfolio website to showcase projects, technical expertise, and contact information in an interactive format.
- Integrated smooth page transitions and scroll animations using Framer Motion for a modern and dynamic user experience.
- Designed a fully responsive layout with Tailwind CSS, ensuring seamless performance across all devices.

Tech Stack: React, Tailwind CSS, Framer Motion

Education

- Bachelor of Computer Application (BCA) – Dr. RMLAU, 2025–2028 (Pursuing)
- Intermediate (12th) – SGSIC Samodhpur, 2025
- High School (10th) – SGSIC Samodhpur, 2023
- NIELIT O Level Certification – Completed 2025
- NIELIT 'CCC' Certification – Completed 2024

Technical Skills

- Frontend:** HTML, CSS, JavaScript, React.js, Redux, Tailwind CSS, Framer Motion, Shadcn
- Backend:** Node.js, Express.js, Firebase
- Database:** MongoDB, Firebase
- Dev Tools:** Git, GitHub, VS Code, Vercel, Netlify, Postman
